

At the ESWC2009

We continue the good tradition of hosting a special session of lightning talks. This session allows conference participants to introduce new ideas, comment on issues presented during the conference, calls for collaboration - controversy and discussion are positively encouraged!

Every participant has a two-minute time slot and one (optional) PDF slide available. There is no review process, so if you are interested in presenting a lightning talk, please send email to:

Michael Hausenblas
michael.hausenblas[at]deri.org

with the subject '**ESWC2009 Lightning Talk**'
with your name, affiliation and a one sentence description of your talk

until **12:00 CET on Monday, June 1** to register your interest.
